**SUBJECT: PROVISION OF SPECIAL EDUCATION SERVICES TO NONPUBLIC SCHOOL STUDENTS WITH DISABILITIES WHO ARE PARENTALLY PLACED**

Beginning with the 2007-2008 school year, the **district of location** is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

The new requirements **do not** pertain to parental placements of preschool children with disabilities in private day care or preschool programs or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, and State-supported or State-operated schools, nor does it apply to Charter schools. These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools.

**Parental Consent Needed by the School District of Location**

Federal law and regulations require the following:

- a) If a student with a disability is parentally placed, or is going to be parentally placed in a nonpublic school that is not located in the school district where the student legally resides, parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location. Therefore, parent consent is required before sharing Individualized Education Programs (IEPs) and other education records between the district of residence and the district of location.
- b) If a parent who has placed a student with a disability in a nonpublic school at his/her own expense does not provide consent for the initial evaluation or the reevaluation, or the parent fails to respond to a request to provide consent, the district of location may not use the due process hearing to override lack of parental consent; and the district of location is not required to consider the student as eligible for special education services.

**Consultation Requirements with Nonpublic Schools**

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the school district. The school district must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE. The consultation process must be timely and meaningful and include discussion of the following topics:

STUDENTS

**SUBJECT: PROVISION OF SPECIAL EDUCATION SERVICES TO NONPUBLIC SCHOOL STUDENTS WITH DISABILITIES WHO ARE PARENTALLY PLACED (Cont'd.)**

Child Find

The child find process must include discussion on how parentally placed nonpublic school students suspected of having a disability can participate equitably, including the procedures to be followed by the district of location and nonpublic school to identify students who may have disabilities.

Provision of Special Education Services

Consultation must address how, where and by whom special education and related services will be provided to such students, including a discussion of types of services, such as direct services and alternate service delivery mechanisms.

If the school district disagrees with the views of the nonpublic school officials on the provision of services or the types of services, whether provided directly or through a contract, the school district shall provide to the nonpublic school officials a written explanation of the reasons why the school district chose not to provide services directly or through a contract.

Use of Federal Funds

Consultation must also include determination of the proportionate amount of federal funds available to serve parentally placed nonpublic school students with disabilities, including the determination of how the amount was calculated.

Upon completion of the consultation process, the nonpublic school representatives must provide written affirmation of their participation in the consultation process. If the nonpublic school representative does not provide such affirmation within a reasonable period of time, the school district must forward the documentation of the consultation process to the State Education Department (SED).

**Child Find Requirements (Including Individual Evaluations and Reevaluations)**

Child find is the practical method the public school district of location will develop and implement to identify, locate and ensure the evaluation and identification of students with disabilities who are parentally placed in nonpublic schools. The child find activities must be similar to activities undertaken for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the school district. The child find obligations also include parentally placed nonpublic school children who reside outside New York State.

STUDENTS

**SUBJECT: PROVISION OF SPECIAL EDUCATION SERVICES TO NONPUBLIC SCHOOL STUDENTS WITH DISABILITIES WHO ARE PARENTALLY PLACED (Cont'd.)**

The district of location must have procedures for conducting evaluations and reevaluations of students enrolled in nonpublic schools located within their district within required timeframes and at no cost to parents. The reevaluation requirements apply to all eligible parentally placed nonpublic school students with disabilities, even those not currently receiving services.

**Development of Individualized Education Programs (IEPs)/Individualized Education Services Programs (IESPs) and Provision of Special Education Services for New York State Resident Students**

The CSE of the district of location will be responsible to develop an Individualized Education Program (IEP)/Individualized Education Services Program (IESP) for New York State students with disabilities enrolled by their parents in nonpublic schools located in the geographic region of the public school. It is called an IESP to distinguish it from the IEP that would be developed if the student were enrolled in the public school district where he/she resides. The IESP developed for parentally placed nonpublic school students must be developed consistent with the manner in which the IEPs of all students with disabilities are developed and the services to be provided cannot be determined based on the proportionate share of federal funds. The CSE of the district of location must ensure that a representative of the nonpublic school where the student attends is included in the meeting where the IESP is developed. If the representative cannot attend, the school district must use other methods to ensure participation by the private school, including individual or conference telephone calls. The IESP must be reviewed periodically, but not less than annually.

The school district of location is also responsible to provide special education services pursuant to the IESP developed for each eligible student. The parent must request special education services in writing to the school district by June 1 preceding the school year for which the request for services is made. Exceptions to the June 1 request for services deadline must be provided in accordance with law.

**Transportation**

If special education services are to be provided to a student at a site other than the nonpublic school, the district of location is responsible to provide the special education services, including, as applicable, arranging and providing transportation necessary for the student to receive special education services. The proportionate share of IDEA Part B dollars could be used for such purpose.

The school district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

## **Services Plans for Out-of-State Children**

### **Out-of-State Students Attending New York State Schools**

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of-State students must be documented on a Services Plan that is developed by the CSE of the district of location. The Services Plan is the written plan that describes the specific special education and related services that the district of location will provide to the student, consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal IDEA Part B dollars, to be provided to the student.

The Services Plan must, to the extent appropriate, be developed, reviewed and revised by the CSE of school district of location consistent with the requirements for development of an IEP. The parent(s) of the student must be invited to the meeting and the district of location must also ensure that a representative of the nonpublic school where the student attends be included in the meeting where the services plan is developed. If the nonpublic school representative cannot attend, the school district must use other methods to ensure participation by the nonpublic school, including individual or conference telephone calls. The services plan must be reviewed periodically, but not less than annually.

### **New York State Resident Students Attending Out-of-State Schools**

The parents of a New York State resident student who place their child in a non-public school in another state must contact the school district in the other state where the school is located to determine their child's eligibility for services. The out-of-state district is responsible for developing a Services Plan which will indicate the services to which the child is entitled.
