April 12, 2021

Dear Families:

As required by the NYS Health Department, and in conjunction with the Onondaga County Health Department and OCM BOCES Health & Safety Office, the district is required to conduct lead water sampling from outlets within the schools every five years. In this study, water samples found to have the presence of lead with 15 parts per billion are identified.

The district previously conducted testing at LaFayette Jr/Sr High School, LaFayette Big Picture School and Grimshaw Elementary in November 2020. The results are available on our website: [click here](#) and [here](#).

The Onondaga Nation School water sources were recently tested for the presence of lead on April 1, 2021. All tested water sources were within acceptable limits. A copy of the lab results is available by clicking [here](#).

These results have been reported to the NYS Department of Health as well as the Onondaga County Health Department.

Should you have any questions or concerns please feel free to reach out to me: [jbelfield@lafayetteschools.org](mailto:jbelfield@lafayetteschools.org) or 315-529-9550.

Sincerely,

Jeremy L. Belfield  
Superintendent of Schools  
LaFayette Central School District
